Hi Eric,

Just wanted to let you know, we discussed changing the transition date of the OSC responsibility for the spill from today to May 18, 2018. NPFC had some issues with continuing to pay contractors hired by the CG after today's date so to ensure they are able to properly demobe they stated they needed two weeks. Capt. Day apparently is on board with this and you will be getting a revised transfer of OSC responsibility form to sign reflecting the change.

Thanks,

Kelli Lucarino

Team,

Thank you for contributing in this morning's call. It was decided that the U.S. EPA's assumption of On-Scene Coordinator responsibility for the B3402/C3402 Marina Spill will be effective May 18th, 2018 at 1700 (local). May 18th, 2018 will be day 196 of the response.

V/R,  
JH

John - I am. Suggest including SILC on call, too. Have copied Gerry Hendricks (KO for D1) & Jackie Dickson (Jerry's boss) there. Let me know number. Pat

Mr Ryan,

Good morning. Agree that we need to coordinate and establish a new timeline and transition date/time ASAP. Mr. Mosher and CAPT Day are aware that the 0900 hand off this morning is not realistic. Are you available for 0930 call to discuss?

John - Please call me when you have a minute. I want to talk about the hand-off of this response from Sector NY to EPA Region II a minute. Thanks.
